Portfolio : Anita Kainth | Aspiring AI & ML Engineer |  GitHub: <https://github.com/anitakainth1>

OBJECTIVE

Motivated and detail-oriented B.Tech student specializing in Artificial Intelligence & Machine Learning with strong knowledge of Java, Python, Data Structures, and Deep Learning. Passionate about developing innovative technical solutions, enhancing problem-solving skills, and contributing effectively to organizational growth through continuous learning and practical implementation.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, C++

Machine Learning & AI: Supervised & Unsupervised Learning, Feature Engineering, Model Evaluation

Deep Learning: Artificial Neural Networks (ANN), Convolutional Neural Networks (CNN), Recurrent Neural Networks (RNN), Transfer Learning, Transformers, Image Classification, Sequence Modeling

Frameworks & Libraries: TensorFlow, Keras, PyTorch, Scikit-learn, NumPy, Pandas, Matplotlib, Seaborn, WordCloud

Data & Analytics: Data Preprocessing, Data Cleaning, Exploratory Data Analysis (EDA), Web Scraping

Web Development: HTML, CSS, Bootstrap, JavaScript (DOM Manipulation)

Databases: MySQL, MongoDB

Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)

Tools & Platforms: Git, GitHub, Jupyter Notebook, Google Colab, Linux, Tableau, Power BI

SOFT SKILLS

Problem-Solving | Time Management | Learning Agility | Leadership | Quick Learning | Team Collaboration | Innovation

EXPERIENCE

Technical Trainer (Intern)

AISECT | Dec 2025 – Mar 2026

- Conducted training sessions and interactive classes during the internship
- Delivered structured sessions on technical concepts and learning modules
- Assisted students in understanding programming and technical topics
- Participated in organized training and internship activities

PROJECTS

Next Word Predictor | NLP, TensorFlow, Keras

- Designed a Next Word Prediction system using NLP and deep learning techniques
- Performed text preprocessing and tokenization on sequential language data
- Trained sequence-based models for contextual word prediction
- Improved prediction accuracy using neural network concepts and language modeling

Pneumonia Detection using Chest X-Ray | CNN, TensorFlow, OpenCV

- Built a CNN-based deep learning model for pneumonia detection using chest X-ray images
- Performed image preprocessing and data augmentation for better model training
- Implemented the project using TensorFlow and Keras for medical image classification
- Applied deep learning techniques to improve disease detection accuracy

CERTIFICATIONS

- Completed certification in Data Analytics from Novitech
- Learned core Machine Learning concepts through Alison
- Completed Java Programming course from Udemy
- Gained Python 3 programming knowledge through Lernoiox
- Learned Tableau Data Visualization techniques from Great Learning
- Explored Multiagent Systems through IBM SkillsBuild
- Completed JavaScript Programming certification from Lernoiox

EDUCATION

Lamrin Tech Skills University, Ropar, Punjab – B.Tech in AI & ML 2023

MBG Public Senior Secondary School Pojewal - Senior Secondary Education
